

MultiSal® Menthol

Triggered release, invigorating and refreshing sensation

Technical Data Sheet

Suggested Dosage of MS Menthol

Property	Specification
Appearance	Free flowing powder
Form @RT	Solid
Color	Off-White
Odor	Mild Menthol Odor
pH (1% soln)	3.0 - 5.0
% Solids	95.0 - 100
%wt Menthol	30

Application	%wt of 8002-03	Dosage (kg/kg)
Lip Care	1	0.2
Skin Care	2-5	0.4-1.0
Pain Relief	4-8	0.8-1.6
Foot Care	7-20	1.4-4.0

INCI - 8002-03

Sodium Starch Octenylsuccinate, **Menthol**, *Butyrospermum Parkii* (Shea) Butter Extract, *Euphorbia Cerifera* (Candelilla) Wax, Hydrated Silica*

*silica-free version also available [8002-04]

How to Use

MultiSal® Menthol is suspendable in water-based emulsions. It enables fast formulation with menthol without the need to pre-suspend, liquefy, or melt the crystal menthol. Recommended use level of MultiSal® Menthol is dependent on type of product and/or desired effect.

MultiSal® Menthol is compatible with anhydrous or bases with low water activity, such as sticks and lip balms. The material is considered generally safe for oral care products.
