Subject: HPC Statement on HydroSal® Salcool, 8278-04

To Whom It May Concern,

We, at Salvona LLC d/b/a Advanced Beauty Labs, hereby certify that to the best of our knowledge and based on information provided by our raw material suppliers, the Hydroxypropyl Cellulose (HPC) used in the product **HydroSal® Salcool, 8278-04** conforms to the following specifications:

- The HPC has a weight-average molecular weight of approximately 80,000, as determined by size exclusion chromatography.
- The HPC has a hydroxypropoxy content of 74.5% (on a dry basis)
- The specific grade utilized is HPC-SL.

As part of our commitment to producing safe, high-quality, and compliant personal care products, we actively work with our suppliers to ensure transparency and avoid the inclusion of materials that may be of concern to consumers and regulatory bodies.

Should you require any additional documentation or have further questions, please feel free to contact us directly.

Sincerely,

Shai Shefer
CEO
