Subject: Statement on EU Microplastics Compliance for SalScent®, 8816-11
To Whom It May Concern,

We, at Salvona LLC d/b/a Advanced Beauty Labs, hereby certify that to the best of our knowledge and based on information provided by our raw material suppliers, SalScent®, Product ID: 8816-11 does not contain intentionally added solid microplastic particles as defined under Regulation (EU) 2023/2055, which amends Annex XVII of Regulation (EC) No 1907/2006 (REACH).

Specifically, the polymeric ingredients in this product, including Polyvinylpyrrolidone (PVP), are water-soluble and not considered solid or non-biodegradable polymers under the scope of the EU Microplastics restriction. Therefore, PVP in SalScent® is not classified as an EU microplastic.

As part of our commitment to producing safe, high-quality, and compliant personal care products, we actively work with our suppliers to ensure transparency and avoid the inclusion of materials that may be of concern to consumers and regulatory bodies.

Should you require any additional documentation or have further questions, please feel free to contact us directly.

Sincerely,

Digitally Signed
