1 PRODUCT AND COMPANY IDENTIFICATION

Product Identifier / Recommended Use of the Chemical

Product Name: SalSphere® Even Skin
Product Number: 8894-04

Responsible Party

Company Name: Salvona Technologies, LLC
Address: 2521 Kuser Road
Hamilton, NJ 08691

Emergency Contact

Emergency Contact: Not available
Emergency Telephone Number: Not available

2 HAZARD(S) IDENTIFICATION

Hazard Classification

Hazard Statement:

H315	Skin Irrit. 2	Causes skin irritation
H318	Eye Dam. 1	Causes serious eye damage
H361	Repr. 2	Suspected of damaging fertility or the unborn child

Precautionary Statement

Prevention:
P201: Obtain special instructions before use.
P202: Do not handle until all safety precautions have been read and understood.
P264: Wash...thoroughly after handling. Manufacturer/supplier or the competent authority to specify parts of the body to be washed after handling.
P280: Wash protective gloves and eye/face protection thoroughly after handling. Manufacturer/supplier or the competent authority to specify type of equipment.
P281: Use personal protective equipment as required.

Response:
P302+P352: IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313: IF exposed or concerned: Get medical advice/attention.
P310: Immediately call a POISON CENTER or doctor/physician.
P321: Specific treatment (see reference to supplemental first aid instruction on this label). Manufacturer/supplier or competent authority may specify a cleansing agent if appropriate.
P332+P313: If skin irritation occurs: Get medical advice/ attention.
P362: Take off contaminated clothing and wash before reuse.

General Advice: No information available

Storage: P405: Store locked up.

Disposal: P501: Dispose of contents/container to in accordance with local/regional/national/international regulation (to be specified).

Unknown Acute Toxicity

Unknown Toxicity: The formula contains 0.125% unknown acute toxicity related to the following INCIs (Isostearamidopropyl Dimethylamine Sulfate).

3 COMPOSITION / INFORMATION ON INGREDIENTS

INCI	CAS #	% Composition	Hazard Code
PEG-8	25322-68-3		
Salicylic Acid	69-72-7	30%	H318, H361
Isostearamidopropyl Ethyldimonium Ethosulfate	67633-63-0	4.185%	H315, H318
Sodium Hydroxide	8012-01-9, 1310-73-2	1.98%	H315
Propylene Glycol	57-55-6		
Isostearamidopropyl Dimethylamine Sulfate	-		
Isostearic Acid	30399-84-9		
Isostearamidopropyl Dimethylamine	67799-04-6	0.025%	H315, H318
Water (Aqua)	7732-18-5		
Carthamus Tinctorius (Safflower) Seed Oil	8001-23-8		
Olea Europaea (Olive) Fruit Oil	8001-25-0		

4 FIRST-AID MEASURES

Description of Necessary First Aid Measures

Eye Contact: Flush eyes for several minutes under running water. Consult physician if problems persist.

Skin Contact: No first aid should be needed, but if irritation occurs discontinue use. Consult physician if problems persist.

Inhalation: If experiencing respiratory symptoms, consult with a physician.

Ingestion: Rinse mouth immediately and drink large quantities of water. Consult physician if problems persist.

Most Important Symptoms/Effects, Acute or Delayed

Most Important Symptoms/Effects: No information available

Recommendations for Immediate Medical Care When Necessary

Notes to Physician: Treat symptomatically

5 FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Extinguishing Media: On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO2), dry chemical or water spray. Water can be used to cool fire exposed containers.

Specific Hazards Arising from Chemicals

Specific Hazards: None

Protective Equipment and Precautions for Firefighters

Equipment/Precautions: Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

6 ACCIDENTAL RELEASE MEASURES

Personal Precautions and Protective Equipment

Personal Precautions: Keep unnecessary personnel from entering the area. Spilled material may present a slipping hazard.

Environmental Precautions

Enviro. Precautions: Keep away from drains, surface and ground water and soil.

Methods and Materials for Containment and Cleaning Up

Containment: Wipe up with absorbent material and prevent further leakage or spillage. Contain and collect spillage and dispose according to local/national regulation.

Cleanup: Clean up materials from spill with suitable absorbent. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard.

7 HANDLING AND STORAGE

Precautions for Safe Handling

Handling: Avoid eye contact. Do not take internally.

Conditions for Safe Storage

Storage: Store away from extreme heat and direct sunlight. Store in accordance with good manufacturing practices. See Section 10 for more specific information.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits

OSHA Permissible Exposure Limits: Sodium Hydroxide:
Cal OSHA PEL (Ceiling) – 2 mg/m3
NIOSH REL (Ceiling) – 2 mg/m3
OSHA PEL (TWA) – 2 mg/m3

American Conference of Governmental Industrial Hygienists: No Information available

Threshold Limit Values: No information available

Engineering Controls

Controls: General ventilation recommended

Personal Protective Measures to Prevent Illness or Injury from Exposure

Personal Protection Equipment: None required
Eye/Face Protection: None required
Skin Protection: None required
Hand Protection: None required
Respiratory Protection: None required

9 PHYSICAL AND CHEMICAL PROPERTIES

Physical and Chemical Properties

Physical State:	Translucent to hazy liquid
Odor:	Characteristic
Color:	Light to Dark Amber
pH:	3.0 – 5.0
Melting Point:	No test data available
Freezing Point:	No test data available
Boiling Point:	No test data available
Flash Point:	Not applicable
Vapor Pressure:	No test data available
Specific Gravity:	No test data available
Solubility:	No test data available
Viscosity:	No test data available

10 STABILITY AND REACTIVITY

Reactivity

Reactivity: Presents no significant reactivity hazard, by itself or in contact with water.

Chemical Stability

Stability: Product is thermally stable at typical use temperatures and storage conditions.

Other

Conditions to Avoid: Avoid extreme heat above 120°F and extreme cold below 30°F.

Materials to Avoid: Avoid strong oxidizing agents, strong acids, strong bases.

Hazardous Decomposition Products: Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: carbon dioxide, alcohols, ethers, hydrocarbons, ketones and polymer fragments.

11 TOXICOLOGICAL INFORMATION

Likely Routes of Exposure

Inhalation:	Unlikely under normal use; possible if aerosolized or during spill cleanup.
Ingestion:	Possible through accidental oral exposure, especially in non-industrial settings.
Skin contact:	Expected during normal handling and application.
Eye contact:	Possible due to accidental splashing or transfer from hands

Delayed, Immediate or Chronic Effects from Short- and Long-Term Exposure

INCI / Component	CAS #	Toxicological Summary (Based on Public Data & CIR Reports)
Isostearamidopropyl ethyldimonium ethosulfate	67633-63-0	CIR 2020: Safe in cosmetic formulations in the present practices of use and concentration, described as up to 5.7% in rinse-off products and 1.8% in leave-on products. The data demonstrated low acute oral and dermal toxicity.
Isostearamidopropyl Dimethylamine	67799-04-6	CIR 2015: Safe as cosmetic ingredients in the present practices of use and concentration (up to 2.5% in rinse-off, 0.1% in leave-on). The data indicated low acute toxicity, and clinical testing at up to 10% concentration showed no irritation or sensitization.

INCI / Component	CAS #	Toxicological Summary (Based on Public Data & CIR Reports)
Sodium Hydroxide	8012-01-9, 1310-73-2	In finished cosmetic formulations, it is neutralized and present at very low concentrations to achieve target pH, mitigating its corrosive hazard. The CIR has reviewed its safe use as an adjusting agent
Salicylic Acid	69-72-7	Dermal Irritation & Sensitization Potential (CIR: safe at concentrations ≤2% in leave-on products; higher concentrations may cause irritation). Systemic absorption can lead to salicylism in high doses (nausea, tinnitus, dizziness). Developmental toxicity observed in animal studies at high oral doses (H361).

Numerical Measures of Toxicity

Values: Isostearamidopropyl ethyldimonium ethosulfate & Isostearamidopropyl Dimethylamine - Oral LD_{50} (rat): ATEmix 300 - 2,000 mg/kg
Salicylic Acid: Oral LD_{50} (rat): ~890 mg/kg. Dermal LD_{50} (rabbit): >2,000 mg/kg.
Sodium Hydroxide:
Skin: rabbit 1mg/24h Severe
Eye(s):"rabbit 400µg Mild, 1 % Severe, 50µg/24h Severe, 1mg/30s rinse Severe
Toxic Oral: rabbit LDL0: 500 mg/kg

Description of the Symptoms

Symptoms: Skin Contact: Redness, itching, dryness, or irritation (especially with prolonged exposure).
Eye Contact: Pain, redness, tearing, blurred vision, possible corneal injury.
Inhalation: Unlikely; if aerosolized, may cause irritation to mucous membranes and upper respiratory tract.
Ingestion: Nausea, vomiting, abdominal pain, tinnitus, dizziness (salicylate toxicity).

Indication of Carcinogens

Carcinogenicity: No known effect

12 ECOLOGICAL INFORMATION

Ecotoxicity

Toxicity: Sodium Hydroxide:
Fish: LD_{50}: 189 mg/l (1N solution = 40 g/l) EC0 < 20 mg/l
Aquatic organism: LD_{50}: 10-100 mg/1 96 h. High toxic to fish and plankton due to pH changing. But not result in a lack of oxygen in ecological system

Persistence and Degradability: No data available

Bio-accumulative potential: No data available

Mobility in Soil: No data available

Other Adverse Effects: No data available

13 DISPOSAL CONSIDERATIONS

Disposal Considerations

Guidance: Dispose of content in compliance with all Federal, State and local laws and regulations. Regulations may vary in different locations. Do not re-use empty containers.

14 TRANSPORT INFORMATION

Land Transport U.S. DOT

DOT Non-Bulk:	Not applicable
DOT Bulk:	Not applicable
Proper Shipping Name:	Not applicable
Hazard Class:	Not applicable
UN/NA Number:	Not applicable
Packing Group:	Not applicable

Maritime Transport IMDG

Proper Shipping Name:	Not applicable
Hazard Class:	Not applicable

Air Transport ICAO/IATA

Proper Shipping Name:	Not applicable
Hazard Class:	Not applicable
Label:	Not applicable
Packaging Instructions:	Not applicable

15 REGULATORY INFORMATION

OSHA Hazard Communication Standard
This product is not a “hazardous chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910,1200.

Food and Drug Administration (FDA)
The product described in this Safety Data Sheet has not been evaluated by the FDA. It is regulated under the Federal Food, Drug and Cosmetics Act (FD&C Act) and is safe to use as per directions on container, box or accompanying literature.

TSCA Status
All compounds of this product are listed, or excluded from listing, on the United Stated Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

16 OTHER INFORMATION

Date / Revision

Date of Preparation:	December 29, 2025
Revision:	1

Disclaimers
