Subject: Regulation (EC) No 1223/2009 Statement for SalSphere® Even Skin, 8894-21

To Whom It May Concern,

We, at Salvona LLC d/b/a Advanced Beauty Labs, hereby certify that to the best of our knowledge and based on information provided by our raw material suppliers, the product SalSphere® Even Skin, 8894-21 is formulated in accordance with Current Good Manufacturing Practices (cGMP) and complies with the structural safety requirements of Regulation (EC) No 1223/2009 for cosmetic ingredients, within permissible limits as shown below.

- **Salicylic Acid (CAS 69-72-7):** Regulated under **Annex III (Entry 98)** and **Annex V (Entry 3)** of Regulation (EC) No 1223/2009. Because SalSphere® Even Skin, 8894-21 contains a concentrated baseline of **25.00% - 32.00% Salicylic Acid**, final product formulators must adhere strictly to maximum input limits to achieve regulatory compliance in the EU.

Permissible Use Levels & Final Product Calculations:

To ensure the finished consumer product complies with the latest European Scientific Committee on Consumer Safety (SCCS) restrictions for Salicylic Acid (non-preservative functional use), **SalSphere® Even Skin, 8894-21** must be dosed according to the maximum allowable usage thresholds below (calculated at the upper limit of 32.0% active Salicylic Acid):

Final Finished Product Type	**EU Annex III Max Limit (as pure Salicylic Acid)**	**Maximum Permitted Inclusion Level of SalSphere® Even Skin**
Rinse-off Hair Products	Up to 3.0%	Maximum 9.37% inclusion level in the finished formula.
General Skin Products *(e.g., Face creams, rinse-off cleansers, serums)*	Up to 2.0%	Maximum 6.25% inclusion level in the finished formula.
Specific Leave-on Items *(Body lotions, eye shadows, mascaras, lipsticks, roll-on deodorants)*	Up to 0.5%	Maximum 1.56% inclusion level in the finished formula.

Mandatory EU Compliance Conditions & Warnings:

To achieve a successful Cosmetic Product Safety Report (CPSR) within the EU, the finished product utilizing this raw material must meet the following baseline conditions:

1. **Age Restriction & Label Warning:** Not to be used in preparations intended for children under 3 years of age (except within rinse-off shampoo products). The final container label must explicitly print the warning: **"Not to be used for children under 3 years of age."**
2. **Inhalation Restrictions:** This ingredient **must not** be used in applications or sprayable devices (such as fine aerosol pumps or pressurized propellants) that may lead to the exposure of the end-user's lungs via inhalation.
3. **Oral Applications:** This ingredient **must not** be used in oral care products or mouthwashes.

This statement is provided based on our current regulatory understanding and supplier source information. It remains the responsibility of the finished product manufacturer to perform final testing and ensure the completed formulation passes regional toxicological safety profiles before commercial launch.

Should you require any additional documentation or have further questions, please feel free to contact us directly.
