Subject: Statement on Residual Solvents and Impurities for MultiSal® Ceretin, 9098-06

To Whom It May Concern,

We, at Salvona LLC d/b/a Advanced Beauty Labs, hereby certify that to the best of our knowledge and based on information provided by our raw material suppliers, the product MultiSal® Ceretin, 9098-06 is expected to be free of residual solvents.

While this product has not been analytically tested for these specific substances, our assessment is based on a thorough review of the manufacturing processes and raw materials used. Furthermore, we declare that MultiSal® Ceretin is not expected to contain detectable levels of 1,4-dioxane or ethylene oxide, as these substances are not intentionally added in the product. The ethoxylated ingredient (Polysorbate 20) in this product is declared to not contain detectable levels of these compounds (LOQ: <1ppm)

As part of our commitment to producing safe, high-quality, and compliant personal care products, we actively work with our suppliers to ensure transparency and avoid the inclusion of materials that may be of concern to consumers and regulatory bodies.

Should you require any additional documentation or have further questions, please feel free to contact us directly.

Sincerely,

Shai Shefer
